#SWIMMINGFUN

Dip in, dive down, resurface. The largest expanse of water of all thermal spas in Kaernten and the most varied pool design guarantee never-ending water fun and recreation in summer and winter alike.

The water paradise in the adventure area is perfect for families. Whilst the youngest ones paddle in the well-visible children's pool, the parents can either relax or join in the water fun with the older children. The adventure pool leads directly to the outdoor area with its thermal pool of almost 600 m2 and the new Kaernten attraction – the 86 m high Nockberg slide.

If you are looking a contrast to games and fun, then enjoy the relaxing effects of the Kleinkirchheim thermal spa water in the wellness pool and whirlpool. The sun terrace, too, with its incomparable view of the Nockberg mountains offers you ultimate relaxation.

#HEALTH

Since the Middle Ages people have made pilgrimages to Bad Kleinkirchheim for health reasons. The thermal spa water with a temperature of 36° C has its source directly behind the St. Kathrein spa. It was originally known for its healing effect on eye diseases. Today spa guests seek alleviation and healing in our thermal pools from joint and muscle rheumatism, allergies, anaemia, migraine, exhaustion, sleep disorders, circulatory problems, sciatica, intervertebral disc damage, neuralgia and many other things.

Enjoy wonderful moments of respite in the stress-free atmosphere of our modern sauna landscape with the outdoor sauna, grotto, steam sauna, Finnish sauna, herbal sauna as well as comfortable resting areas whilst stimulating your immune system and circulation at the same time. The Roman tepidarium, where you can revitalize on heated stone plinths in a room temperature of 39° C, is particularly soothing.
